Collèges d'arts appliqués
et de technologie

Introduction

The economic circumstances that prevailed in 1983 had an adverse effect on the job-seeking activities of the year's graduates of colleges of applied arts and technology. Despite the difficult conditions, however, the job-finding success of the college graduates remains relatively high.

This report portrays statistically the job placement experience of the 1983 graduates of postsecondary programs at Ontario's twenty-two colleges of applied arts and technology. The report contains data for individuals who graduated during the period from September 1982 to August 1983, inclusive. The data were collected from graduates up to and including November 11, 1983. It should be noted that graduates in many health science programs (i.e., nursing, radiography) are not available for work until early fall and, as a result, have a shorter period of time within which to find employment, for the purposes of this report.

The report is intended to serve as a resource for students in selecting college programs and for counsellors in advising students on program selection and career planning.

Since the report is a provincial overview, local or regional employment patterns may vary considerably from the province-wide data it contains. To obtain a more accurate picture of employment trends and opportunities in a particular area, readers are advised to contact the placement office of the college located in the region. The staff of each placement office puts a great deal of time and effort into the preparation of this report and consequently has detailed information for its own geographic area on various specific topics (e.g., location of jobs, types of employers, economic trends affecting jobs, salaries, etc.).

Introduction

Pour les étudiants sortant des collèges d'arts appliqués et de technologie, 1983 aura été une année difficile. Pourtant, en dépit de la mauvaise situation économique, le nombre de diplômés de ces collèges qui ont réussi à obtenir un emploi demeure assez élevé.

Dans ce rapport, on trouvera les statistiques d'emploi concernant les diplômés de 1983 des vingt-deux collèges d'arts appliqués et de technologie de l'Ontario. Ces données se rapportent aux personnes qui ont obtenu leur diplôme entre septembre 1982 et août 1983 inclusivement. Elles ont été recueillies auprès des diplômés jusqu'au 11 novembre 1983 compris. Il faudra toutefois tenir compte du fait que les diplômés des divers programmes de sciences de la santé (sciences infirmières, radiographie, etc.) ne peuvent pas commencer à travailler avant le début de l'automne et ont donc eu moins de temps pour chercher du travail.

L'objet de ce rapport est, d'une part, d'aider les élèves à choisir des programmes d'enseignement collégial et, d'autre part, de permettre aux orienteurs de les guider dans la sélection de leurs cours et la planification de leur carrière.

Étant donné que le rapport donne une vue d'ensemble de la situation à l'échelle provinciale, il est possible que les conditions diffèrent grandement à l'échelon local ou régional. Pour avoir une idée plus précise des tendances du marché et des débouchés offerts dans une région donnée, les lecteurs sont priés de se mettre en rapport avec le service de placement du collège de leur région. Le personnel de chaque service de placement a consacré beaucoup de temps et d'efforts à la préparation de ce rapport. Il dispose de renseignements détaillés qui reflètent mieux la situation locale : où chercher du travail, types d'employeurs, tendances économiques qui influent sur le marché de l'emploi, salaires, etc.
